LEGISLATIVE ASSEMBLY.

PRIVATE BILLS.

EXCERPT FROM RULES AND ORDERS RELATING TO PRIVATE BILLS.

RULE 59.

ALL APPLICATIONS for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867," whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, or Telegraph or Telephone Line; the construction

or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work: the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application and, where the application refers to any proposed work, indicating generally the location of the work, and signed by or on behalf of the applicants, such notice to be published as follows:—

In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House, to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committee charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with the notices published.* At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be

re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring $10\frac{3}{4}$ inches by $7\frac{1}{2}$ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By new Rule 65A, passed on the 2nd April, 1901, (*see Journals, 1901, page 58*), a model form of Railway Bill is adopted.

By 65B all Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

Under a new rule, see Journals 7th March, 1908, in the case of Bills to Incorporate Companies, in addition to the fee of \$300 mentioned in rule 57, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.

MUNICIPAL BY-LAWS.

LOCAL IMPROVEMENT GENERAL BY-LAW, 1909.

Being a General By-law to Provide for the Assessment of Real Property Benefited by Local Improvements.

THE Municipal Council of the Corporation of the City of New Westminster enacts as follows:—

1. The cost of constructing such of the works and improvements mentioned in section 256 of the "Municipal Clauses Act," as made applicable to the City of New Westminster by section 23 of the "Municipal Clauses Act Amendment Act, 1909," as are referred to in this By-law, shall be assessed, levied and collected by means of a special rate for local improvements on the land and real and assessable property immediately benefited thereby:

2. The Municipal Council may, by resolution, determine and specify what work or improvements it is desirable to have carried out:

3. On the passage of such resolution, and after it shall have been entered in the minutes of the Council, copies thereof shall be transmitted by the Clerk to the City Engineer and City Assessor:

4. On the receipt by the City Engineer of a copy of the said resolution, it shall be his duty to proceed at once to ascertain and determine the said works or improvements, and to make, and certify as correct, a plan or description, or specification thereof, and to make an estimate of the expense of cost thereof, and to ascertain, determine and show on said plan what land or real or assessable property will be immediately benefited by the proposed improvements, and the City Engineer and City Assessor shall, after such plan has been made and certified conjointly, ascertain and determine the proportion in which the assessment is to be made on the various proportions of the land or real or assessable property so benefited, and shall make a joint report of all such matters to the said Council, which report, when approved of and adopted by the said Council, shall be entered by the City Clerk in a book to be kept for that purpose, and to be called the "Local Improvement Book," and a copy of the plan aforesaid shall be made by the said Engineer and filed in the office of the City Clerk:

5. The said report of the City Engineer and Assessor shall state:—

(a.) What land or real or assessable property will be immediately benefited by the proposed improvements:

(b.) The probable lifetime or duration of the improvement:

(c.) An estimate of the probable cost of the proposed improvements, and the amount thereof which should be assessed against the property immediately benefited:

(d.) The proportions in which the assessment should be made on the various portions of the land or real or assessable property so benefited:

6. In ascertaining and determining the cost of laying, making, enlarging or constructing or prolonging any work of local improvement consisting of the construction of a main or common sewer, the said City Engineer and Assessor shall estimate the cost of the construction of branch sewers to the line of the street, and include the cost of such branch sewers in estimating the assessment for such main or common sewers, and report to the Council thereon:

7. In every case where an outlet or other sewerage works for the sewerage and drainage of property (not fronting or abutting upon a street in which a sewer is, or is proposed to be constructed) is required to be constructed of a capacity larger than is required for the effective sewerage and drainage of the property so fronting or abutting or upon the street, the City Engineer shall estimate, determine and report to the Council the additional cost of so enlarging the capacity of the outlet or sewerage works, and the Engineer and Assessor shall estimate and determine and report to the Council what amount of special assessment should, in their opinion, be imposed on the other land or real or assessable property, not so fronting or abutting, but which may be benefited by the construction of such sewer or drain so enlarged as aforesaid:

8. When a vacant space intervenes between the line of a street and a building into which or under which a sewer pipe is to be taken to connect with any sewer, the cost of laying the sewer across such vacant space and under such building shall be paid by the owner of such property to be so connected with such sewer, and, until paid, shall be a charge on such property:

9. In all cases where a main or common sewer is or shall be laid in any street or through any lot or land the said City Engineer and Assessor shall, in accordance with the provisions of this By-law, ascertain and determine the cost per foot frontage of such main or common sewer upon the lots on each side of the portion of the said street or on the lands, or other assessable property, if any, on each side of the said sewer in which, or through which, the said sewer shall, from time to time, be laid:

10. The following shall be deemed to be works of local improvement, in addition to any works defined herein or by the "Municipal Clauses Act":—

(a.) The creating, opening or making of a new street:

(b.) The widening and extending, prolonging, constructing or reconstructing or altering of an existing public street:

(c.) The paving or macadamising or planking, grading or levelling any street, lane, alley, public way or place, or any bridge forming any part of a highway, or sidewalk, or of curbing, sodding or planking any street, alley or other public place, or reconstructing as well as constructing any work in this and the previous sub-section provided for:

The estimated cost of any such works as may be determined upon shall be assessed, levied and collected by means of a special rate for local improvement upon the land, real or assessable property immediately benefited thereby:

11. The City Engineer shall, upon the receipt of a copy of the resolution determining to carry out any such local improvement work, proceed at once to ascertain and determine the said works, and to make the estimates and all other matters directed by section 4 hereof, and, with the assistance of the Assessor, ascertain and determine the assessment, and make the report, and do and perform all other matters and things required by the said section thereof. The cost of such work of local improvement may be ascertained and determined at per foot frontage of all land, real or assessable property fronting or abutting or upon the highway, bridge or street, place or land wherein or whereon such work of local improvement is proposed to be made or done:

12. Where it shall appear to the City Engineer and Assessor that any portion of the works dealt with by sections 6 and 10, or any work of local improvement immediately benefits property of the City, or that the carrying out of such work includes the benefiting of the Municipality at large in

respect of the crossings or intersections of the highway, bridge or public streets or place, or otherwise, the Engineer and Assessor shall report and recommend what proportion of the total cost of the work immediately benefits, in their judgment, the land, real or assessable property, and in what manner and by what deductions they have arrived at such proportion:

13. Nothing herein contained shall be deemed to prevent the City from assessing the whole of the cost of any work upon the lands, real or assessable property immediately benefited thereby, or of levying and collecting the special rate in respect of the same; but the Council shall, in the by-law levying any special rate, determine what proportion of the cost of the work will thereafter be refunded to the persons having paid such special rates, and in what manner and at what times, or they may determine to allow any proportion by way of rebate or deduction upon punctual payment of such rates:

14. When it is the duty of the Engineer and Assessor to ascertain and determine the proportion of assessment for works on corner lots, triangular and other irregular shaped pieces of land situated at the intersections or junctions of streets, the said Engineer and Assessor shall recommend what in their opinion would be an equitable mode of assessment by having due regard to the situation, value and superficial area of such lots, as compared with the lots and pieces of land more immediately adjacent to such work:

15. Whenever it is necessary or proposed to assess lands or real or assessable property not fronting or abutting or upon any highway, street, or place wherever or on which works are proposed to be carried out, but which are adjacent to and immediately benefited by such works, full consideration shall be given by the City Engineer and Assessor in all cases to the value of the lands or real or assessable property as regards to their suitability or adaptability for building purposes, and the relation their value for all purposes shall bear to the value of the lands, real or assessable property, fronting or abutting or upon any such highway, street or place:

16. Whenever under this By-law it is determined to assess land or real or assessable property with the cost of main or common sewer, or a local improvement, and the assessment cannot be equitably adjusted and made on the basis of a frontage charge or rate, such other equitable mode of assessment shall be resorted to as the Council may, from time to time, or in each case, determine, and the City Engineer and City Assessor shall determine the amount of assessment in the mode so directed by the Council:

17. So soon as the report of the City Engineer and Assessor shall have been received, and the report of any amendment thereof shall have been adopted by the Council and entered by the Clerk in the Local Improvement Book, as aforesaid, the Clerk shall, save as provided in the following section, cause a notice to be inserted in at least one newspaper published in the City to the effect that the said report, or a necessary part thereof, is open for inspection at the office of the Assessor, and signifying the intention of the Council to make the assessment therein set forth; and it shall be the duty of the Assessor to see that such report, or part thereof, is open for the inspection of all persons during office hours:

18. No such public notice as aforesaid shall be given when the proposed improvement consists of the construction of branch sewers to connect any real property with a common sewer or connecting any building with a branch sewer, making necessary house or building connections with such sewer, or of laying a sewer-pipe across any vacant space and under any building when such vacant space intervenes between a line of a street and such building. In all cases the cost of the same shall be payable and paid by the owner of such real property, and if any damage be done to this portion of the sewer, or its connections or its fittings, either by neglect or otherwise, the cost of the same shall be paid by the owner of the real property, and shall be charged, as aforesaid, whenever the Council authorise and have made the repairs to the same:

19. If within a period of fifteen days from the date of the first publication of such notice as aforesaid, any petition is presented to the Council against any improvement of which notice has been duly advertised, as provided, it shall be the duty of the Assessor to ascertain and report to the Council whether the said petition is signed by a majority of the owners of the land or real or assessable property to be assessed, representing at least one-half in value of said land or real or assessable property so to be assessed, and to certify upon his finding upon the said petition, and to report the same to the Council:

20. Should a petition as in the preceding section contemplated not be presented to the Council, or should the Assessor certify on any other petition that may have been presented and entertained by the Council that said petition is not signed by a majority of the owners of such land, real or assessable property, so to be assessed and representing one-half in value of such property, then and in each case the Council shall proceed with the proposed improvements under such terms and conditions as to the payment of the cost of such improvement as the Council may, by By-law in that behalf, regulate and determine; and the Assessment Roll showing the property and the amount assessed for the local improvement shall be prepared and open for inspection at the office of the Assessor, and the Clerk shall cause notice to be inserted in at least one newspaper published in the City to the effect that the Assessment Roll is so open for inspection:

(a.) In case the owner or any person interested in any of such property desires to appeal from such Assessment, he shall, within the period of eleven (11) days from the first publication of the said last-mentioned notice, give notice to the clerk, in writing, of his intention to appeal:

(b.) If any such notice of appeal be so received by the said Clerk, trial of such complaint shall be had at the first instance by and before the Court of Revision which the Council shall, from time to time as occasion may require, hold on some day not earlier than two (2) days, and not later than fifteen (15) days from the expiration of the said period of eleven (11) days.

(c.) Such Court of Revision shall be composed of the Mayor or Acting Mayor and not less than four (4) members of the Council, and shall hear such complaints, and after hearing the parties complaining, as well as the Engineer and the Assessor, and such other evidence as may be adduced, the Court of Revision may confirm, alter, raise or lower the assessment, and every such decision shall be considered as final, except the same is further amended on appeal as hereinafter provided:

(d.) At the Court of Revision the complainant and all witnesses shall give evidence upon oath. The Mayor or Acting Mayor and four (4) members of the Council shall be a quorum of the Court. Any member thereof may administer the oath to any person giving evidence thereat, and the Clerk of the Council shall be the Clerk of the Court unless the Court otherwise determined. The assessment, as finally passed by the Court of Revision and certified by the Clerk as passed, shall, except in so far as the same may be amended on appeal as hereinafter provided, be valid and bind all parties concerned, notwithstanding any error or defect in or with regard to such assessment:

(e.) If any person be dissatisfied with the decision of the Court of Revision, he may appeal therefrom, in which case he shall, within two (2) days after the decision of the Court of Revision, in person or by his solicitor serve upon the City Clerk a written notice of his intention to appeal to the Judge or acting County Court Judge having jurisdiction within the said City. The Judge shall appoint a date for hearing the appeal, notice of which shall be given by the Clerk. The Judge shall hear the appeal and the evidence adduced upon oath at the time and place appointed in a summary manner, and may adjourn the hearing from time to time, and defer judgment therein at pleasure:

21. Where an owner of land or real property, at his own expense, but with the sanction of the Council previously had and obtained, constructs the portion of any sidewalk fronting upon his own

property as a permanent sidewalk, the Council may refund to him the whole of such portion of the cost of such construction as they may think just:

22. In case the Council shall by resolution determine to carry out any work of improvement which, under the provisions of the "Municipal Clauses Act" and Amending Acts, may be carried out under the Local Improvement plan, and the Council propose to defer making assessment for any such work or improvement until after the same has been carried out, the procedure shall be as follows:—

(a.) The City Engineer and City Assessor shall proceed in manner directed by sections 4, 5, 12, 14 and 15 of this By-law, and all other provisions of such sections and of sections 16, 17, 18 and 19 hereof shall, if applicable, be followed:

(b.) The Council may hereafter by By-law determine to proceed with the proposed work or improvement, and for the purpose of obtaining temporary advances and loans for meeting the cost of the work of improvement pending the completion thereof, shall determine the amount to be borrowed and the rate of interest and other terms of borrowing:

(c.) Immediately the said work or improvement has been completed, it shall be the duty of the City Engineer and City Assessor to make a report of the cost of the said work or improvement, and to ascertain and determine the proportions in which the assessment for the same, or such proportion thereof as shall not be contributed by the Council, is to be made on the various portions of land or real property benefited as ascertained and determined by the report as to the said work or improvement made pursuant to section 4 hereof:

(d.) Thereupon the Council shall, by By-law, assess and direct to be levied and collected the cost so estimated of such improvement under such terms and conditions as to payment, and in such manner as the Council in that behalf may regulate and determine; and may, by the same By-law, or any subsequent By-law authorise the issue of debentures to repay the amount of the temporary loan or advance as well as to provide the balance of cost:

23. The following By-laws are hereby repealed, namely:—

"Local Improvement By-law, 1889," and "Local Improvement By-law, 1889, Amendment By-law, 1905":

24. This By-law may be cited as the "Local Improvement General By-law, 1909."

Done and passed in open Council this 14th day of April, A.D. 1909.

Reconsidered, adopted and finally passed the 19th day of April, A.D. 1909.
